EUROtex III

instruction manual
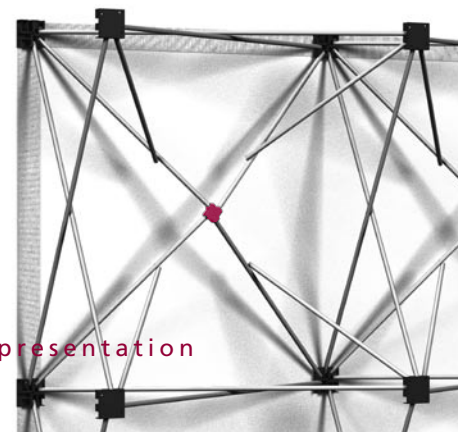

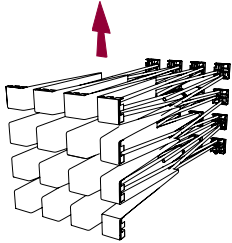

[p]art of perfect presentation
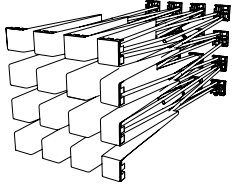

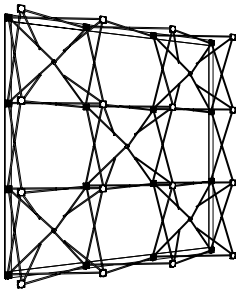

– Remove the structure from the packaging and place it on the floor, so that the rubber feet are on the floor and the textile panel is away from you.

Flight bag for EUROtex III

– Hold the structure by the top bars and open to its full size.

– The self-locking system will fix and hold the structure itself.
– Once the structure is fully open you can attach the lights.
– Your presentation is ready.
